Gifts with a Difference

shop.arochoa.org

Welcome to the Gifts with a Difference gift catalogue!

Show someone you care by giving something meaningful. Something that will not get thrown in the bin. Something that brings hope for them and the planet!

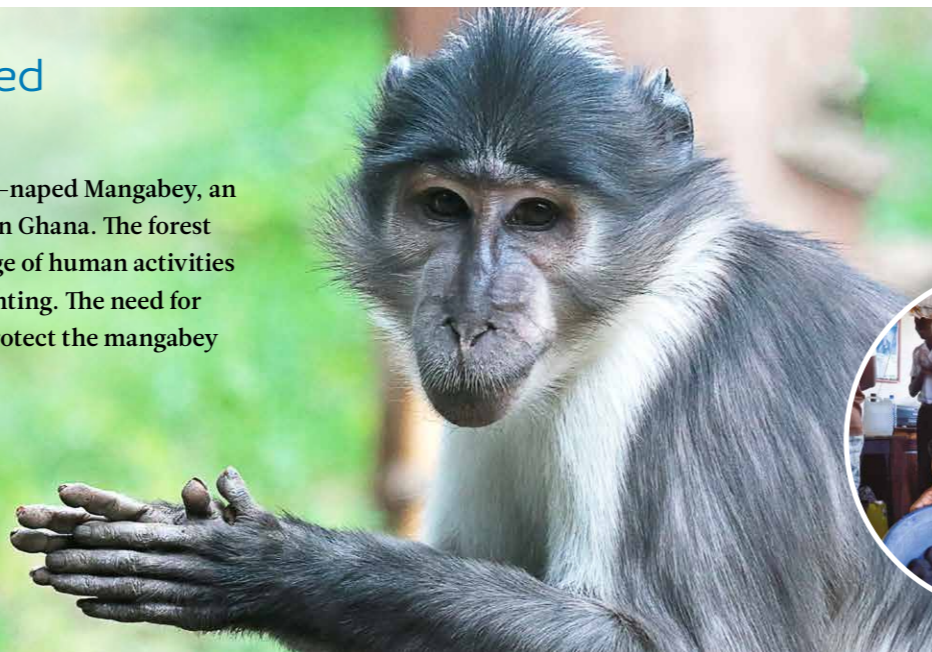

Each order comes with a beautiful, free card to remind your loved one of the difference made in their name.

Visit shop.arocha.org to order your gift today!

Help save the White-naped Mangabey, Ghana

A Rocha scientists recently discovered the White-naped Mangabey, an Endangered monkey, living in the Atewa Forest in Ghana. The forest and the mangabey are being threatened by a range of human activities including bauxite mining, illegal logging and hunting. The need for action is urgent. Your gift today will help us to protect the mangabey and the biodiversity of the Atewa Forest.

Ref: 1383 £50; £100; £250

Fuel-efficient cook stove, Uganda

Cook stoves dramatically improve indoor air quality – improving health and saving money or time that would otherwise be spent on purchasing or collecting fuel wood. The environment benefits too, by helping to reduce emissions and save trees from being cut down.

Ref: 246 Small: £9; Medium: £11; Large: £16

Fireless cooker, Uganda

Fireless cookers can cut cooking time in half, reducing fuel use, saving trees and saving money for families in Uganda.

Ref: 160 Small: £23; Large: £26

Add on a **fireless cooker training day**, allowing 10 people to learn how to make their own. Ref: 231 £32

Charcoal briquettes, Uganda

Train 10 women to make briquettes using free and readily available waste material. It will save trees from being cut down for charcoal production and money that can be spent on other essentials. Ref: 162 £20

Beehive, Kenya

Give a farmer in Dakatcha Woodland Important Bird Area a hive and beekeeping training, equipping a sustainable source of income using the forest's rich resources.

Ref: 287 £79 for one beehive; £316 for four beehives

Bio-sand water filter, Uganda

Over 9 million men, women and children in Uganda do not have access to clean, safe drinking water. Children die every day from preventable diseases caused by contaminated water and improper sanitation and hygiene. You can help provide the gift of clean water today by purchasing a bio-sand water filter for a family in need. These filters remove up to 99% of pathogens and parasites without the need for chemical treatment or boiling, reducing water-borne diseases. The reduced charcoal use also means that families have more money to spend on other essentials and, with fewer trees needing to be cut down, habitats are protected. Ref: 67 £66

Sack gardening, Uganda

Sack gardens offer families a way to grow their own vegetables where space is limited or where flooding is frequent. Gardening provides a healthier diet, and brings people closer to nature. Give one day of training, allowing 10 people to learn how to make and care for their sack gardens. Ref: 168 £15

Marine life conservation fund

Oceans cover 71% of the earth and are teeming with life: beautiful, weird and wonderful creatures, big and small. Sadly, overfishing, pollution and climate change are an increasing threat. A Rocha's marine activities focus on supporting healthy oceans and the communities who use them. We care for marine protected areas, study biodiversity, remove plastic and promote human health and well-being. Your gift today will help A Rocha's Marine and Coastal Conservation Programme continue to transform the oceans so that its rich bounty is sustained for future generations.

Ref: 1386 £25; £50; £100

Planting 100 trees, Kenya

By planting trees, ASSETS beneficiaries can actively help to restore degraded areas of the threatened dry coastal forest ecosystem. They can help improve the local soil and water quality and they can help provide a safe habitat for wildlife.

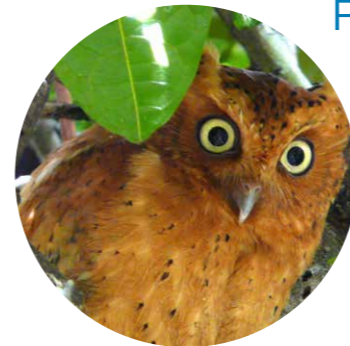

Ref: 292 £40

Nature-based livelihood for a Syrian refugee, Lebanon

Your gift will employ a Syrian refugee for a day to do practical conservation and site maintenance work at Mekse Nature Park in Lebanon. Ref: 787 £27

Only £5
Plant for Mekse Nature Park, Lebanon

For just £5, you can buy a plant and help provide habitat for birds, reptiles and invertebrates! Ref: 799

Purchase land to protect endangered owls, Kenya

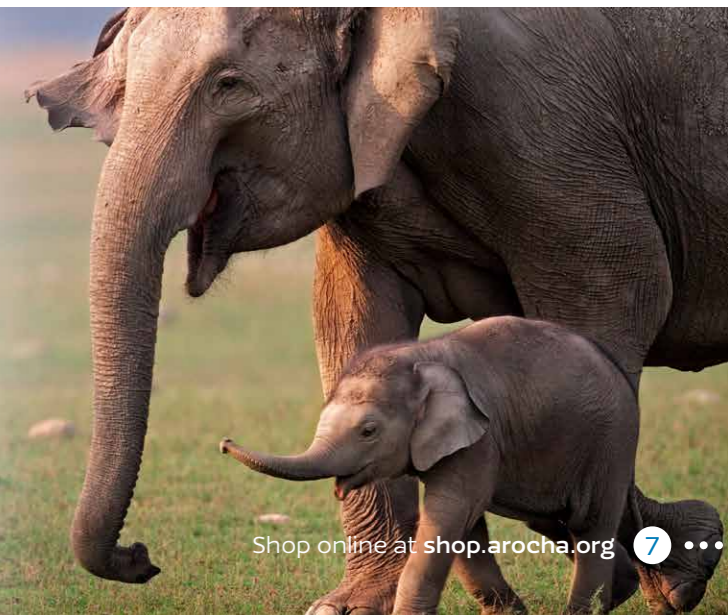

The Dakatcha Woodland in Kenya, one of three places that are home to the globally Endangered Sokoke Scops Owl, has been designated as an Important Bird Area and is part of a coastal forest biodiversity hotspot. Currently, the woodland is being cleared for charcoal and agricultural use. Your gift today will help us purchase land to protect species like the Sokoke Scops Owl and run conservation programmes to reduce the rate of woodland clearance. To commemorate your gift, you'll receive a certificate for the land purchased.

Ref: 1385 £120 for one acre; £240 for two acres; £1,200 for ten acres

Protect the habitat of Asian Elephants, India

Asia is the world's most densely populated continent. As towns and villages multiply, habitats are becoming degraded, endangering the Asian Elephant. A Rocha India has been working since 2004 to address these issues through careful science and environmental education. Your gift today will help us continue running ecology camps for local schools, making presentations in the city and training new forest guards, in addition to educating the community about the plight of wildlife and conserving habitats.

Ref: 1384 £75; £150; £300

More to give?

Gifts with a Difference can be adapted to fit any occasion or budget. Perhaps your church or group would like a special project to support? The following show just a few examples of the difference you could make to people and nature. To discuss any of these, please contact us on giving@arocha.org

Beehives for a community, Kenya

A Rocha Kenya's beekeeping programme is working with 100 farmers across Dakatcha Woodland, equipping communities with beehives and training. Your gift will provide 10 hives and the basic skills to increase the farmers' income and reduce their dependence on unsustainable forest products. **Ref: 563 £800**

Forest restoration, Kenya

Enable ASSETS beneficiaries to plant 1,250 native trees in and around the Arabuko-Sokoke Forest to restore degraded areas of this threatened dry coastal forest ecosystem. **Ref: 567 £500**

A Rocha International, 89 Worship St, London, EC2A 2BF, UK

 A Rocha International is a member of the International Union for the Conservation of Nature

Bio-sand filter training for a church or community, Uganda

Invest in a community with five days of training, allowing 30 people in Uganda to learn how to construct bio-sand water filters, as well as giving five filters for use by the church or community members. Participation can offer 150 people access to clean, safe drinking water, save £4,200 in charcoal costs and medical fees and prevent 90 trees from being cut down each year.
